With the stepped up activity in veterans' hospitals, due to the current war situation, there is a great need for more afghans for use of patients.

Mrs. Wencel Bartosch, local (Burlingame) Red Cross Production Chairman, today issued a plea for yarn to be used by her many volunte knitters to make more afghans.

"Any odds and ends of yarn can be used to make these bright colore robes, and I urge all who have extra yarn of any kind or color to help our service men and the Red Cross at once by bringing it or mailing it to the Chapter House at 1449 Bellevue Avenue, Burlingame

HOME IS THE FISHERMAN--HOME FROM THE SEA!!

Our own Lester E. Bybee may not have done any shark fishing last Sunday, but he sure made a good haul on the day before that! Accompanied by his brother Joseph Bybee, of Farmington, Utah, Lester Bybee fished off John Turner's boat past Point Reyes, and caught a thirty-two pound, a twenty-eight pound, and a seven pound---SALMON! They dressed down into some thirty nine pounds of kippered salmon--which is good eating in anyone's language.

Our aim is to be worthy

of your friendship-----

SAN MATEO TIDELANDS:

San Mateo is planning to reclaim the now useless tide-lands in order to provide room for expansion, and to eliminate the air pollution menace lurking in burning rubbish piles. Possible use of reclaimed land could be for housing, restricted types of industrial development and recreational and parkway use. Problems of fill, drainage, flood control, sewage, and utilities will be studied in cooperation with many cities, counties, and federal agencies involved. BETHEL-BAPTIST NEARLY COMPLETED:

It has been planned to start the exterior stucco and plaster work on the new Bethel-Baptist Church on San Bruno Avenue sometime this next week. Volunteer workers are welcome and their help will be appreciated.

TWO-WAY RADIO NEEDED:

It has come to our attention that a plea from our local chief of Policy, Dan Case, to the San Mateo County authorities for a two-way radio for his car, has been refused. It is our belief that if full efficiency is to be expected from a one-man police force in a city the size of which Brisbane has become, a two-way radio is not a luxury--but a necessity.

Therefore, it is our belief that since outside aid has been refused--then it is up to us, as the protected citizens of this police district--to see that we are adequately protected with the most modern methods available.

Therefore, we suggest that someone start a campaign within this city, to raise donations in order to buy our police chief the two-way radio he needs and wants.

Thus, in some small measure, perhaps we can repay Dan Case for the many times he has given time and money so that we could enjoy some of the civic activities in the past. Let's get behind our chief, and see that he gets at least one of the things that will make his job a little easier and a little safer, and a lot more efficient so far as protection for us is concerned. (Since this item was written, Case has rec'd. Radio from San Mateo County Sheriff's Office.)

FADS & FASHIONS--by Grace Vanderkar.

The folks are not vindictive--you can live it down--but nothing is forgotten in a little town!

The spot light is on Costume Jewelry. There are so many new and different styles. It just seems there is a type for every type of dress. Pearls combined with rhinestones are exquisite with the satin and velvet costumes. One and two strand pearls are the thing for jersey and courduory--and the new wooden and leather sets--which include necklace and earrings as well as bracelets--tops for glamour sport. Long drop earrings--even those that extend to the shoulders, are ultra-ultra. But for those who do not like or can not wear them, there are the shorter styles. Chokers are good--but we can't all wear them, of course. However, there are lengths for each of us, and types for every costume.

In regards to hats--the small ones are it this season. Most of them have a feather high in front, and a veil. They are superb with suits, wool dresses, velvets, and so forth. Large hats are good for some occasions, but are mostly reserved for special things like Weddings and such. Have you seen the new hose with the seam matching the color scheme of the shoes? Very highly styled. Seems like the wrong time to bring out such a fad, what with Nylons on the way to being rationed. Something else interesting--the fur neck pieces, such as kolinsky. Very chic with suits and wools. And under it all, for that sleek appearance--a Playtex girdle is the foundation to a slender, slim figure.
